

THERMAL MONOCULAR

Odin-31DW Weapon Sight Kit

The Odin thermal monocular has become the smallest, lightest Thermal Imaging Monocular on the market today. It's extremely small size and weight makes it an ideal unit for multiple uses. The Odin uses the latest technologies to make a Mil. Spec system that is identical in size, weight and shape to the AN/PVS-14.

The Odin thermal monocular is a multi-purpose system that uses the latest in miniature thermal sensor technology combined with a new OLED display to provide a superior image in the smallest package available. The Odin combines an array of features to make it the most capable thermal monocular on the market.

The Odin system is designed for; hand held, head mount, helmet mount and weapons mount operation. For convenience, the Odin is designed to use the same accessories as the familiar AN/PVS-14 Night Vision Monocular.
